THE PUBLIC DEFENDER

With

Robert Ramsey
Garden State CLE Senior Instructor

And

Edward Gore
Attorney

Program description

Given the huge volume of important cases that move through the local courts each year, the municipal public defender has become a key player in the process. This one-credit CLE will teach you how the public defender works with the prosecutor and judge to advance the work of the criminal justice system in municipal court.

I. Introduction

- **Practices law in Mercer County, Hamilton Township**
- **On Hamilton Township Council**
- **Hamilton Township Municipal Public Defender for 4 years – appointed by the mayor**

II. Background and History of Public Defender in NJ

- **Betts v. Brady, 316 US 455 (1942) – due process clause of 14th amendment does not require appointment of counsel for those who are indigent**
- **Gideon v. Wainwright, 372 US 335 (1963) – reversed Betts – requires the states to spend money for public defenders to represent indigent people; justices struggled with this concept; states were moving on their own to create public defenders at the time of this case; the Supreme Court felt confident enough that few states would be greatly affected by this ruling; only addressing felony offenses (criminal matters) – not addressing “petty offenses”**
- **“petty offenses” – jail of less than 6 months, fine of up to \$1000**
- **Gideon did not cover petty offenses**
- **No constitutional right for those charged with petty offenses to have appointed counsel**
- **SCOTUS never ruled that constitutional right to counsel for petty offense**
- **Rodriguez v. Rosenblatt, 58 NJ 281 (1971) – people in NJ who are charged with a “consequence of magnitude” and are indigent are entitled to be appointed counsel**
- **Consequences of magnitude = any amount of jail OR license suspension OR fines of \$750 and up**
- **\$750 is an arbitrary baseline set by the courts – in the aggregate**
- **Supreme Court has no authority to create system of public defenders**
- **Attorneys were appointed on ad hoc basis by judges**
- **Madden list - Attorneys were on a list to be chosen by the court**
- **Ultimately legislature created public defender system**

- **Statutory scheme for public defenders – NJSA 2B:24-1 – creates position of public defender and duties of public defender**

III. Duties of public defender in municipal court

- **Handle any client who the court appoints – given file and handle their case as any other client**
- **In places where there are more than 1 public defender – attorney has 2 attorneys because the person has the public defender who is in court that day**
- **Public defender handles entire case from appointment through end of the case up to and including trial and any post-conviction matters in municipal court**
- **Representation of municipal public defender does not go beyond the municipal courthouse**
- **Anyone charged with disorderly persons offense entitles them to a public defender**
- **Who should get the public defender? – court shall determine whether someone’s sentence is likely to entail jail, license suspension, etc.**
- **Judges routinely ask whether someone intends to get own counsel, apply for PD, or represent self**
- **Determining whether someone qualifies for PD requires the court to get additional information about a person**
- **Likely hood of someone going to jail is usually based on whether someone has prior convictions, i.e. prior shoplifting, prior DWI**
- **Judges investigating background of defendant is problematic according to some attorneys**
- **State v. Medina, - states that judges are able to exclude from their minds inadmissible evidence**
- **PD acts as an attorney for those who are in lock-up primarily for bail hearings**
- **PDs represent every person in jail no matter what they are charged with for first appearance – to advise client, argue bail, etc. – not the standard of practice in every county**
- **People in jail come up on jail video – PDs would get appointed to represent that person and could resolve the case that day**

- **NJSA 2B:12-23.1 – allows judges to resolve cases with jail term, alternate penalties**

IV. Process of getting a PD

- **Judges look at charges and make determination of whether person wants to retain counsel, pro se (entitled to do so by *Faretta v. CA*, 422 US 806 (1975)), or if cannot hire an attorney can apply to get PD**
- **Client completes AOC form – “5A” form – Uniform Defendant Intake – basic information from defendant as to financial capabilities**
- **Judge will review 5A (can ask for tax returns and additional financial information outside what is on the form)**
- **Judges err on the side of assigning a PD**
- **PD is not free**
- **Having PDs involved streamline process – quick resolution of the matter**
- **There are those who should not get a PD and could get money for an attorney if they wanted to but judges just assign the PD to err on the side of caution**
- **Judges have vested interest in having PDs involved in the case – quicker resolution of cases; easier to have attorneys on both sides of a case, as opposed to a pro se defendant**
- **After considering 5A form, judge either grants application or not**
- **Public defender fee – there is a fee at superior court level as well**
- **Money collected for PD fees are supposed to go into fund to pay for PD services so that PD is being funded by defendants and to have a fund available for hiring experts, etc. – if money left in the fund at the end of the year, it goes to VCCB**
- **PD receives a yearly salary and health benefits, retirement**
- **Some courts merely charge \$200 for each person who qualifies for PD, other courts assess based on budgetary consideration**

V. The job of a public defender

- **High volume of cases – usually a one-man show**
- **Assess what are client's needs? What will the law allow them to do for sentencing? What are the facts of the case?**
- **Cannot get personally involved with client – just assess needs, etc.**
- **Do not have time to get emotionally involved with a client**
- **Cannot be at war with the prosecutor – must act collaboratively**
- **PD and prosecutor have different responsibilities (RPC 3.8) – 32 min**
- **PD responsible to client just like any other client**
- **Each party (PD, prosecutor and judge) has their own job to do in order for criminal justice system to function**
- **PD and prosecutor must work collaboratively within their own job descriptions**
- **If you want to work out a resolution in client's best interest, need to work with prosecutor**
- **PD cannot try to pull the wool over the prosecutor's eyes in municipal court**
- **Must have high level of trust between PD and prosecutor – to insure plea offer is appropriate for each case – prosecutor must have confidence in PD's representations**
- **Important that prosecutor knows PD did not try to undercut before the judge**
- **PD should look at file and know what client's needs are – so you know at the end of the day where you want to be – prosecutor also knows where he wants to be at the end of the day – this is needed to try to have a meeting of the minds to resolve the case**
- **Must meet the needs of all the participants in the court system in order to have a good resolution**
- **Never take an adversarial posture with the victim – explain to victim their role in the process – sometimes opportunity for victim to vent is all that is necessary –**

what are victim's needs – factor this into the plea negotiations

- **A defendant's ability to pay restitution can assist in putting through a favorable plea**
- **PD must know everything there is to know about sentencing**
- **If you go before a judge without knowing criminal history or driving abstract, then you are not adequately advising your client – to understand collateral consequences**
- **Worst source of information for client's past is the client**
- **99% of cases are plead out – must know what constitutes a legal sentence**
- **If sentence is legal – will it satisfy client's needs? Is this in the interests of justice?**
- **State v. Reiner, 180 NJ 307 (2004) – how to sentence on a school zone offense**
- **Higher quality of advocacy from PD because of familiarity**
- **Must file appropriate motions when there are issues in the case**
- **Be respectful to prosecutors – don't get angry if unable to resolve the case – some cases just have to be tried – let judge make the ruling on the evidence**
- **Public defender appointment is 1 year**
- **PDs can continue representing private clients in the same court – prosecutor cannot practice criminal law in the same county**

VI. Advice to be a good public defender

- **Keep an open mind**
- **Be part of the municipal court team**
- **Be prepared to work hard based on volume**
- **Will learn how to be a good attorney**
- **Clients will not get better representation if they hired you privately**
- **Do not accept money from client – no tips**
- **On public payroll – same scrutiny as other public employee**

- **Go in with the right attitude – part of a team – goal is to advance the needs of the municipal court system**
- **Become a complete and total expert on sentencing**
- **Assess client's needs and find a resolution that fits those needs**
- **Know sentencing – allows you to be creative in handling cases**
- **Understand work is going to be high volume**
- **Have fun!**
